

# Equine Healing and integration in treatment therapies

## Masterclass with Margrit Coates

At the Training Centre of Be&Become,  
Rheezerveenseweg 6, Heemerveen, Overijssel

**Equine healing and communication – learn how to use the techniques taught by Margrit as stand alone treatments or to enhance other therapies. Her workshops are taught with passion and enthusiasm.**

The aim of the 2 day workshop is to open delegates up to working at a very high level of energy and through this to be able to activate healing response in equines. All the techniques can be integrated into other therapies so that they work on a deeper level.

### During the workshop

#### *Energy work*

Delegates will experience feeling energy movements and energy patterns in horses. This means being able to be specific and focused when working with healing energy.

#### *Equine communication*

Through unique meditation delegates will learn how to communicate with horses so that they can better understand them.

#### *Content*

The workshop will comprise lectures and practical work and there are a large number of needy horses for us to work with. Scientific evidence will also be discussed to help delegates understand the benefits of working on a deep energy level.

### Workshop content includes:

- The role of the human in healing, both the practitioner and the horse carer
- The healing touch and its implications
- The bio, psycho and social aspects of equine healing
- The power of intention and how to use it for healing purposes
- Equine Energy States
- How to open up the sixth sense and intuitive level to be able to effectively communicate, mind to mind, with horses. The aim is to better understand a horse's problems.
- Unique exercises and meditations to reach the soul of horses and understand their healing messages
- Discover *Heartwarming* – a unique technique developed by Margrit to enable deep healing communication to take place

During the workshop Margrit will share her unique and extensive knowledge, passing on tips to enable delegates to enjoy the art of healing communication with horses.

## Time

Day one	9.15 am – 4.30 pm
Day two	9.30 am – 4.00 pm

- ✓ All participants must have at least five years horse handling experience, with a wide variety of horses.
- ✓ Minimum age 23.

## Responsibility

- ✓ *Please note.* All participants must be experienced with handling horses. The organisers, tutor and venue staff cannot be held responsible for any mishap due to the unpredictable nature of horses.
- ✓ All workshop participants must have insurance to work with/heal/handle horses.

## About Margrit Coates

Margrit Coates is the author of four groundbreaking books and has commissioned four CDs of music especially for animals. She has also produced a DVD. Her work has been covered extensively in the media, including TV and radio, and she has written numerous articles and columns for a wide range of publications. As well as giving consultations Margrit lectures and teaches internationally. She is a founder partner in a clinic offering natural therapies for animals including horses. Her partners are a homeopathic veterinary surgeon and a chartered veterinary physiotherapist.

Margrit is a member of several organisations including the NFSH (The Healing Trust) and the British Register of Complementary Practitioners.

Margrit herself has taken courses with vets, osteopaths, chartered physiotherapists and scientists who specialise in energy medicine. Margrit has also studied animal cranio sacral therapy with Gail Wetzler of the Upledger Institute, USA. She often works with world renowned veterinary physiotherapist Amanda Sutton and has worked alongside the late Anthony Pusey, an outstanding and pioneering equine osteopath.

For humans Margrit is qualified in reflexology, aromatherapy, cranio sacral therapy, massage including manual lymphatic drainage, and of course healing.

Margrit is frequently asked by vets to see horses to offer an insight into a horse's problems. She recently took part in a clinic in Ireland, where she worked with an acupuncture vet and an equine chiropractor to help their treatments reach horses on a deeper level. All of this helps Margrit to have a good understanding of other modalities.

As well as running animal healing courses for the NFSH, Margrit has taught at the College of Psychic Studies in London and the Harry Edwards Healing Sanctuary. She is a part-time lecturer in animal healing to post graduate students in the Department Of Animal Behaviour, Southampton University.

Margrit has taught her specialist courses around the world to vets, vet nurses, equine physiotherapists/osteopaths/chiropractors/dentists/massage therapists and body workers etc.

*"Having worked with Margrit Coates, I can vouch for her healing ability. Her gift to animal healing is enormous."*

Nick Thompson Vet MF HOM MRCVS, consultant for Horse, Horse and Rider, and Your Dog magazines

*"Margrit Coates is an outstanding healer in her own right, and a gifted teacher who conveys to her students both the art and science of their craft."*

*Her teaching style is practical and grounded in the real world, her care for the animals is paramount and her insistence that the healer is part of the veterinary team ensures that healing is not used either by owners as a cheap and relatively effortless alternative to veterinary care or by vets as last-ditch bandage to cover up their failure to make a clear diagnosis.*

*More to the point, her methods work - and often in cases where a diagnosis has proved impossible; when all efforts have clearly been made regardless of cost. As both an anaesthetist and an acupuncturist, I have come to consider that it is the care we give that makes the difference and the system we learn, while valid in its own right, in many ways is a means by which we can disengage our left brain to let the rest of us do the work.*

*Margrit's methods bring us a step closer to the heart of healing by offering a system by which we can allow 'that-which-knows' to heal without our self-judgement being in the way. For anyone interested in any aspect of healing work, I would thoroughly recommend her courses and her teaching."*

Amanda Scott MA Cert VA BVMS MRCVS

*"Margrit Coates is an highly motivated person who is extremely knowledgeable in the field of animal healing. She has taught students on the Postgraduate Diploma/Masters course here at Southampton University. Her lectures are greatly appreciated by the students and I am sure that you will find her an asset to your tutoring team".*

Dr Anne McBride  
Senior Lecturer. School of Psychology, Course Director PG Dip/MsC in Companion Animal Behaviour

*"Margrit has an ability to deliver the whole range of her own vast experience in an astonishingly short time whilst simultaneously raising her students to a level where they can readily absorb a great deal of this experience".* Kate Davies, workshop participant
